

Major Software Upgrade

General Contractor

A **general contractor in Southern California** came to Abtech to upgrade their Sage 300 CRE Accounting Software from version 18 to version 20. This included **upgrading the software on their Server, RDS Server, and 30 end-user machines with minimal downtime.** Abtech has performed similar work for this company in the past and they are a current **Windows Managed Services and Stortrust services** customer.

School District in Pennsylvania

A **school district in Pennsylvania** came to Abtech with an immediate need for a **new virtual environment using Dell Servers, Storage, and Switches.** Abtech was able to **design and deploy the environment** and **migrating the current VMs to the new platform successfully.**
